

High

Chrishan

What up girl?

Uh baby can we make love in my car
We used to do
Remember how we did it back in high school
Head on the seat, [?] on the dash panties, on the floor while I'm lickin on
your ass
I don't know why you ain't screamin, nobody gotta know
How we get down on the weekend, tell me where we wanna go
I know you be tired of the usual, typical, physical
Would you be attracted girl

I know what you like I'm a do you right
We can go all night,
We'll be making love till the morning light
Morning high, yeah the morning light
Making love till the morning

I know what you like I'm a do you right
We can go all night,
We'll be making love till the morning light
Morning high, yeah the morning light
Making love till the morning

Find a man who'll say you're beautiful rather than you're hot
When you strung up give me sweat, who can put it on the spot
When it's good, when it's sudden, who can tie it in a knot
But who can understand that essence of everything you are
And the motion of an ocean, I'm a put you by the [?]
Who will never leave you open, who will do it like it's first
Give it to you like I do you, when he do it like he do you
When he put this love on you, in you, through you

I know what you like I'm a do you right
We can go all night,
We'll be making love till the morning light
Morning high, yeah the morning light
Making love till the morning

I know what you like I'm a do you right
We can go all night,
We'll be making love till the morning light
Morning high, yeah the morning light
Making love till the morning

Turn around
Put it down on me like you never did, baby
Make them sounds tell me how you love it, while I go deep baby

I know what you like I'm a do you right
We can go all night
We'll be making love till the morning light
Morning high, yeah the morning light
Making love till the morning
