

I Love You (Devilish Things)

Chrishan

Through all of the devilish things we do
Through all of the devilish things we do
Through all of the devilish things we do

I could be left, you could be right
I could be day, you could be night
On the outside, it look so nice, look so nice
But on the inside, all we do is fight
And burn, riding bikes, but never learn
Draw the lines, until it hurts
With none of us wanting to be over
Bitching and kicking the walls
You'll be breaking the dishes, oh yeah
Man, it seem like we're losing it all
Still we don't wanna miss it, no, no

Through all of the devilish things we do
Through all of the devilish things we do
Through all of the devilish things we do
I love you
I love you
I love you

You could white, I could be black
You could be jill I could be jack
And on the outside, it looks on track
But we run back, back, back, yeah
All we do is fight
And burn, riding backs but never learn
Draw the lines, until it hurts
With none of us wanting to be over
Call me bitching and kicking them bars
You'll be breaking the dishes, oh yeah
May it seem like we're losing it all
Still we don't wanna miss it, no ah

Through all of the devilish things we do
Through all of the devilish things we do
Through all of the devilish things we do
I love you
I love you
I love you

You got me doin things I'd never do
Baby girl I'm telling you
Love potion number 9
Might have to put a spell on you
Through day and night I dwell on you
Like is you really thinkin
That I could be the only ice to fall in
What you're drinking
Or sippin
So teach me baby, go on, give a lesson
I'm the all the above
Just perfectin while I'm testin
Let Usher tell you pretty mama
These are my confessions

Still runnin down the list number 1
It's my obsession
It's you, it's you

Through all of the devilish things we do
Through all of the devilish things we do
Through all of the devilish things we do
I love you
I love you
I love you
