

# Just Get It Over With

Chrishan

I'm drunk I am on my fourth bottle  
Someone stop my now  
It's chaos alone still had to hope  
I can't cool it down  
This was supposed to be heaven  
But it's hell  
Anything in between I just couldn't tell yeah  
But it feels like it's like a thousand knives  
Right through my eyes every time I see you in my mind  
Kissing him touching him this is torture babe  
Like physically memories jealousy  
I don't have time

Chorus

Just get it over with  
Just get it over with  
Baby just kill me now  
Just get it over with  
Just get it over with  
Just get it over with  
Just get it over with  
Just get it over with  
Baby just kill me now

Every second I am just sitting watching my life pass by  
Heartbeat solid no I am running out of time  
Anything in between I just couldn't tell yeah  
But it feels like it's like a thousand knives  
Right through my eyes every time I see you in my mind  
Kissing him touching him this is torture babe

Like physically memories jealousy  
I don't have time

Chorus

Just get it over with  
Just get it over with  
Baby just kill me now  
Just get it over with  
Just get it over with  
Just get it over with  
Just get it over with  
Baby just kill me now  
Oh baby just kill me now  
Anything in between I just couldn't tell yeah  
But it feels like it's like a thousand knives  
Right through my eyes every time I see you in my mind  
Kissing him touching him this is torture babe  
Like physically memories jealousy  
I don't have time

Chorus

Just get it over with  
Just get it over with  
Baby just kill me now  
Just get it over with  
Just get it over with  
Just get it over with

Just get it over with  
Baby just kill me now
