

## Just Like Them

Chrishan

Where you go, where you go?  
Where you go, where you go?

Ok, I know, I'm no better than your ex ohh  
I no better than your next  
Jumped on the reason you should have spent many time way you ne  
eded  
I should be drinking this wine on the beach now  
Handcuff back of the squad car of police yeah, just let me go  
Feel it and listen  
Not to fuck with your type  
Here we go back to the station  
Patiently waiting no wake up

First you give me your heart then you take it away like there  
Like what you expect me to do  
Ok, bitch I know I'm just like them other guys yeah  
I'm just like them other guys yeah
