

One Day Old

Chrishan

There are things I can't excuse myself from this table
I am in love of who you used to be...
Put myself in situations like... cable
MTV pull a joint to go... away
Did you now... this pain away
I can deal with life this time is too much for me

Be like one day old
Just I was a day old
The shit is getting old to me
One day old one day old
This shit is getting old
I just wanna be somebody
Not just anybody
Living like one day old
Just like I was a day old
She already owns me

Living life misery the combine three
Turn out is was just... for me
Walking blind by the... swear used to love as much as you love me
You own me

Be like one day old
Just I was a day old
The shit is getting old to me
One day old one day old
This shit is getting old
I just wanna be somebody
Not just anybody
Living like one day old
Just like I was a day old
She already owns me

Fantasies feels like I am dreaming
But I just can't see no wakeup
Gave my life off for success
But I didn't trade the...
Sitting at the top thankful I made my way up
Did some things like I died on the way up
When I cried I don't know what stopped pain out of guilt
Love is struggle love is like a CA belt... do my best and see the...

Be like one day old
Just I was a day old
The shit is getting old to me
One day old one day old
This shit is getting old
I just wanna be somebody
Not just anybody
Living like one day old
Just like I was a day old
She already owns me
