

U Don't Even Know

Chrishan

I don't give a f-ck about your day
And I don't really care what you like
I don't wanna hear what you say
I don't give a damn that you're fine
It don't really matter to me anyway, babe
You go yours and I go mine
And if this burden on my heart stays
Then I guess I'll be going to lie

Cause I've been up and down, turned around
Even had my heart broken
And you saying now, saying now
You just playing round, but how was I to know
When you don't even what you doing? what you doing?
What you doing? hey
What you doing? girl what you doing?
And how was I to know? when you don't even know what you doing, baby

I didn't even kissed you for you leave
All I wanna do is go to sleep
These nightmares turn into reality,
Say, I can't even look at you the same
Cause every day I ... your face is changin'
So if you say you're leaving, go and leave
And pray the next thang nothing like, nothing like

Cause I've been up and down, turned around
Even had my heart broken
And you saying now, saying now
You just playing round, but how was I to know
When you don't even what you doing? what you doing?
What you doing? hey
What you doing? girl what you doing?
And how was I to know? when you don't even know what you doing, baby

Baby just like that, and my heart's right back again, and again, and again,
and again girl
Just like that, and my heart's right back again, and again, and again, and a
gain girl
Let me hear you if you love your girl say yeah, say yeah
And if you're tired of the fighting say yeah
And maybe nothing's first than a love that's worthless so tell me can we mak
e it worth

Cause I've been up and down, turned around
Even had my heart broken
And you saying now, saying now
You just playing round, but how was I to know
When you don't even what you doing? what you doing?
What you doing? hey
What you doing? girl what you doing?
And how was I to know? when you don't even know what you doing, baby
How was I to know?
