(Mm-uh)

There's somethin' that you lack, feel under attack
So, you play the blame game, isn't it a damn shame?
Leader of the pack, sulkin' in the back (Uh-uh)
I'm just doin' me, so why the fragile ego?

I know in your little head you're a big tough man
You know how to talk the talk online with all your friends

But in real life you'd be on your knees
You'd be beggin' and pleadin' me just for one private meetin', you want it
"Top dog", put you on a leash
I'll have you muzzled and caged, I'll put you right in your place, you want it

While I'm runnin' with the big boys
You're just playin' with a chew toy
Tryna scare me, but it's just noise
All bark and no bite
Makes you mad, the way I flaunt it
I can tell you're feelin' taunted
It's depressing if I'm honest
You don't cross my mind

All you do is think about me, boy, you haven't crossed my mind
You just hate me 'cause you want it, yeah, you're on my page all night
You've got all your little theories that explain your empty life
Have you ever just considered you're a really shitty guy?

I know in your little head you're a big tough man (You're a big, tough man)
You know how to talk the talk online with all your friends (Hahah, losers)

But in real life you'd be on your knees (Ooh)
You'd be beggin' and pleadin' me just for one private meetin', you want it
"Top dog", put you on a leash
I'll have you muzzled and caged, I'll put you right in your place, you want it

While I'm runnin' with the big boys
You're just playin' with a chew toy
Tryna scare me, but it's just noise
All bark and no bite
Makes you mad, the way I flaunt it
I can tell you're feelin' taunted
It's depressing if I'm honest
You don't cross my mind

Keep sayin' how you're in the matrix all 'cause you know you can't date this
Yeah, you're here crying to your mommy 'cause I'm doin' amazin'
It's just a little ironic, you say "Fuck you" in my comments
But in my DMs you keep beggin' to fuck me (That's embarrassing)

'Cause in real life you'd be on your knees
You'd be beggin' and pleadin' me just for one private meetin', you want it
"Top dog", put you on a leash
I'll have you muzzled and caged, I'll put you right in your place, you want
