

# Head Bitch

Chrissy Chlapecka

You're the kinda girl I like  
Confident and dark brown eyes  
Entourage by your side  
I don't wanna make a mess  
Know you came in with your ex  
What if me and you just left? (Come here)

I love it when you pull me on your lap  
Let's pick it up now, baby, let's go fast please  
And I won't stop it if you stay in drive  
I like the danger when we ride, ride, ride

I've got the head, head bitch, in my hot pink whip  
And we're goin' for a ride, and I'm gonna make her drip  
I've been fantasizin' 'bout between her thighs  
And I've got her on my lips, give her head  
Head bitch

Head, bitch  
Head, bitch  
Head, bitch  
Head, bitch

Baby, take the top down, get comfortable  
You would think we're in a convertible  
I just wanna go down, I need to check  
Underneath the hood, babe, we're gonna wreck

She's a really nice girl, and she's got me obsessed  
Wanna take your top off, get it off of your chest  
You're a really nice girl, she's the head of the clique  
I'm wrapped around her fingertips

I've got the head, head bitch, in my hot pink whip  
And we're goin' for a ride, and I'm gonna make her drip  
I've been fantasizin' 'bout between her thighs  
And I've got her on my lips, give her head  
Head bitch

Head, bitch  
Head, bitch  
Head, bitch  
Head, bitch
