

I Only Want You

Chrissy Chlapecka

You know
You know I'm a fan of you
Who knows
Who knows what a fan could do

Spread me on the counter I'll run like a river
Heavens all around her a sinner delivered
Tove Lo un fleur en j'suis entree silver
I I I

I only want you
Tonight
Let my body listen
To my mind
Kinda like I always
Knew it's right
All I wanted was you

I only want you
Tonight
This is all I wanna do
For life
Touch my soul it's running
Through my thighs
All I wanted was you

You know
This is something I always do (but never like this)
Just know
You're the one thing I could never lose

Spread me on the counter I'll run like a river
Heavens all around her a sinner delivered
Tove Lo un fleur en j'suis entree silver
I I I

I only want you
Tonight
Let my body listen
To my mind
Kinda like I always
Knew it's right
All I wanted was you

I only want you
Tonight
This is all I wanna do
For life
Touch my soul it's running
Through my thighs
All I wanted was you

Start me up
Start me up
You can make me go
Start me up
Start me up

You make me explode

Start me up
Start me up
You can make me go
Start me up
Start me up
You make me explode

You turned me into what I've always been
No time to waste so baby let's begin

I only want you
Tonight
Let my body listen
To my mind
Kinda like I always
Knew it's right
All I wanted was you

I only want you
Tonight
This is all I wanna do
For life
Touch my soul it's running
Through my thighs
All I wanted was you

Start me up
Start me up
You can make me go
Start me up
Start me up
You make me explode

Start me up
Start me up
You can make me go
Start me up
Start me up
You make me explode
