

Disappointed

Chrissy Metz

This is my disappointed song
You might not even wanna sing along
The feeling just sneaks up on you strong
No matter what you do can't shake it off

You're disappointed
It's like the whole world went and let you down
Disappointed, just didn't go your way this time around
Didn't work out like you planned
And you wonder if the sun will ever shine again
You're disappointed
And this is your disappointed song

When it's raining and you can't go out and play
You worked real hard but didn't get an A
And your favorite team just went and lost the game
And your just not ready, for the end of the day

You're disappointed
It's like the whole world went and let you down
Disappointed, just didn't go your way this time around
Didn't work out like you planned
And you wonder if the sun will ever shine again
Your disappointed
And this is your disappointed song
Your disappointed song
Disappointed
