

Things Change

Chrissy Metz

Sun gets hotter in the summer
Leaves come down in the fall
Snow swirls in the winter
Flowers bloom in the springtime dawn

Things change
Like day to night
It's just that way
And it's all alright
Not everything's meant
To stay the same
Even love can grow
Things change

Caterpillars become butterflies
Tadpoles turn into frogs
Baby birds they learn to fly
And puppies grow into bigger dogs

Things change
Like day to night
It's just that way
And it's all alright
Not everything's meant
To stay the same
Even love can grow
Things change

So don't be worried
Don't have no fear
And if you do
I'm right here

Things change
Like day to night
It's just that way
And it's all alright
Not everything's meant
To stay the same
Even love can grow
Things change
Things change
Things change
Things change and it's ok
