

We're fallin' off the edge
And I don't think that we'll fly
Here we go again
Another perilous night
Do we swim or do we sink?
Givin' words to what we think
The odds are paper thin
But we won't know 'til we try

I don't wanna end up
Thinkin' that we messed up
You and I

With all the time we're losin'
We could heal the bruises and rewind
Forget who fucked up
Forget who's done what
'Cause we had love once
And that was enough

The odds are paper thin
But we won't know 'til we try
We won't know 'til we try
We won't know 'til we try

We found the worst of us
Hiding under our skin
And though it hurts too much
You're the one I wanna hurt with
We could swim or we could sink
Givin' nothin' or everything
The odds are paper thin
But we won't 'til we try try try

I don't wanna end up
Thinkin' that we messed up
You and I

With all the time we're losin'
We could heal the bruises and rewind
Forget who fucked up
Forget who's done what
'Cause we had love once
And that was enough
The odds are paper thin
But we won't know 'til we try
We won't know 'til we try
We won't know 'til we try
We won't know 'til we try
We won't know 'til we try
