Punch The Brakes

Christian French

Punch the brakes and let me stay a while

Shorten all my circuits searching for a purpose
Why do questions keep on piling up?
I been lowering my standards, making up the answers
'Cause it's been a while since I found some

But oh whoa
There ain't no stopping for red lights
Now it's always go, go, go
But now I just wanna slow down

Punch the brakes and let me stay a while
Long enough till I can figure out
How to stop spinning round on this wagon wheel
Never knowing how we're supposed to feel, oh
Punch the brakes and let me stay a while
It's been a minute since I looked around

Yeah I got a family, friends that kinda get me
But there's problems that I keep as my own
And I don't wanna bother 'cause they already got 'em
And you know there's never time for one more

'Cause oh woah
There ain't no stopping for red lights
Now it's always go, go, go
When we just wanna slow down

Punch the brakes and let me stay a while
Long enough till I can figure out
How to stop spinning round on this wagon wheel
Never knowing how we're supposed to feel, oh
Punch the brakes and let me stay a while
It's been a minute since I looked around

Gotta take it slow
Gotta take it slow

Punch the brakes and let me stay a while
Long enough till I can figure out
How to stop spinning round on this wagon wheel
Never knowing how we're supposed to feel, oh
Punch the brakes and let me stay a while
It's been a minute since I looked around
