

trigger warning

Christian French

That girl's like driving home when you're wasted
Crashing straight into the pavement
Nothing but bad news
Like too much coffee in the morning
Being caught outside when it's storming
Nothing but bad news
She should come with a trigger warning

Wish someone told me what I'm getting into
Like I'm in the Arctic sitting in a swimsuit
Not the one to talk, but damn she got some issues

She's seeing other guys, got a couple on the waitlist
Blow around her nose like she's almost famous
Smoke a little dro' so the comedown's painless
I can't take it

I'm never gonna rest in peace
She'll be the death of me
More dangerous
Than amphetamines
I think she's gonna ruin my world

That girl's like driving home when you're wasted
Crashing straight into the pavement
Nothing but bad news
Like too much coffee in the morning
Being caught outside when it's storming
Nothing but bad news
She should come with a trigger warning

Yeah, it's kinda tempting falling for that good sex
Body like an angel, devil in a new dress
More shady than the weather in the Northwest

I'm never gonna rest in peace
She'll be the death of me
More dangerous
Than amphetamines
I think she's gonna ruin my world

That girl's like driving home when you're wasted
Crashing straight into the pavement
Nothing but bad news
Like too much coffee in the morning
Being caught outside when it's storming
Nothing but bad news
She should come with a trigger warning
(Oh oh, oh oh)
She should come with a trigger warning
(Oh oh, oh oh)

I'm never gonna rest in peace
She'll be the death of me
More dangerous
Than amphetamines
I think she's gonna ruin my world

She should come with a trigger warning
