

Yeah, Uhh  
Baby I don't want to lie if your right here  
Baby we going have to try to leave this nightmare  
So hurry and decide if your right here  
If your right here Uhhh, Yeah

And it's too real  
Yeah, pop two pretty's and a blue pill  
Uhhh, yeah  
Why she so still?  
She like me  
But she don't like to feel  
I like drugs  
Am I sane?  
They don't drown it to go away  
Drug's make me feel ok  
Don't want her to know my pain  
I find love in broken things  
She finds love, but she needs a way  
Both of us want to be ok  
Now we're at a stand still  
Wish I was your man still, Uhh

When I'm on the stage  
I feel the standstill woah  
Everybody moving on a standstill Woah  
No matter what they say  
I stay the man Still  
If I was your man still  
You would understand standstill Woah  
Yeah, Everybody got a dream  
Yeah, Pull it up back up on me  
Tuck, Now chuck a bucket into the sea  
Yeah, Big man 777  
Riding around in a VEM  
Yeah, We going to 999 shit  
Don't care if you like it

But these drugs make me think that I need you too  
I feel like I'm see-through  
Close your eyes and let me see through you  
You tell me that you love me  
That you're really basic  
When I'm on a stage yeah  
It's easy just to say shit  
I feel like you lie just to get me in your Matrix  
Shoot your shot, Girl I know that you can Aim

Yeah, pop two pretty's and a blue pill  
Uhhh, yeah  
Why she so still?
