High
Let's get High
Let me show you what I want to do, do
When I'm in the bed with you
Let's get High
Let me show you what I want to do, do
When I'm in the bed with you

Relax
Baby put your feet up
Seat Back
We can turn the heat up
Looking out the window
While we drive to the bay
Make my heartbeat
Pumping Night to day
Bottles spin and our lips lock
We don't speak let our hips talk
She can feel
When I lift off
Knees week
But don't slip off
She don't even got to ask for it
She just really got a knack for it
Drinking from her cup
Never get enough
Skinny Jeans
On my Dashboard
Tight dress but she classy
Movie tickets put it past me
We can move it to the back seat
She a lover and a baddie

Break that Pussy In half
Every time I hit it
Need to finish in the back
Every time you get it
Need a minute to relax
And your legs don't work
And your hair pulled back
Eyes rolled up
And neck going to crack
Bed gone squeak
And your legs gone snap
Bed gone squeak
And your legs gone snap
Cause you know
That I'm here to take it all back

Break that Pussy In half
Every time I hit it
Need to finish in the back
Every time you get it
Need a minute to relax
And your legs don't work
And your hair pulled back
Eyes rolled up

And neck going to crack
Bed gone squeak
And your legs gone snap
Bed gone squeak
And your legs gone snap
Cause you know
That I'm here to take it all back
