# Every Now And Then

**Christie**

```
1st verse
You turned me down so many times
You can't come back again
You turned me on, just like you should
But now it's got to end
I'm doing fine, I feel alright
So don't come back again
You made your point, it's very clear
So don't you bother me

Chorus
But every now and then I feel it
Every now and then I feel it
Every now and then I feel it, yeh!
Every now and then I feel it
Every now and then I feel it
Every now and then I feel it, yeh!

2nd verse
You're not the same, you've changed your name
Man it's all too much
You're here today, and gone tomorrow
You've got the winning touch
You know I tried, I tried so hard
You slapped me in the face
I'm sick and tired of trying to hide
And win a losing race

Repeat chorus

Every now and then ..
Every now and then ..
```
