

# Cease Fire

Christina Aguilera

Yeah yeah yeah  
Yeah yeah yeah  
Yeah yeah yeah, yeah

Yeah yeah yeah  
Yeah yeah yeah  
Yeah yeah yeah, yeah (oh oh)

Inglorious soldier I stand 'til the end  
A golden revolver I hold in my hand  
The trigger that I never squeeze  
The war that brings me to my knees

I'm tired of fighting for peace  
When I am alone on the front line  
I need you to stand next to me

Baby, cease fire, fire, fire  
Throw down your weapons, your weapons, your weapons  
I'm on your side, on your side, on your side  
So please cease fire, fire, fire  
Cease fire, make it stop

Drop down your defences, I'm raising my flag  
This fighting is hopeless, we need this to end  
It's going too far, don't know where it began  
We're hurting each other and I can't pretend

I'm trying to help you to see  
The casualties that we both leave  
It's all so unnecessary  
Can't you hear me scream?

Baby, cease fire, fire, fire  
Throw down your weapons, your weapons, your weapons  
I'm on your side, on your side, on your side  
So please cease fire, fire, fire  
Cease fire make it stop

Uh uh uh ooh  
Uh uh uh ooh  
Uh uh ooh  
Uh uh oh

Rolling out  
White flag  
I surrender  
Hear me now  
Make it stop  
We can do better  
Pain and hurt  
Living in fear  
Wasted energy  
In the end  
What is it worth?  
What is our legacy?

Rolling out  
White flag  
I surrender  
Hear me now  
Make it stop  
We can do better

Pain and hurt  
Living in fear  
Wasted energy  
In the end  
What is it worth?  
What is our legacy?

Follow me now  
I'm calling out  
Somebody help me

I need you now  
Why can't you see?  
Gotta believe me

Fighting for peace  
Need a release  
Won't you come with me?

I'm on your side  
Swallow your pride  
You can confide in me

Army of one  
Rise of the sun  
Shining for all to see

Enemy's none  
Victory's won  
No negativity

We can be free,  
We have the key  
To own our destiny

Baby, cease fire, fire, fire  
Throw down your weapons, your weapons, your weapons  
I'm on your side, on your side, on your side  
So please cease fire, fire, fire  
Cease fire make it stop
