## Love Will Find a Way

## **Christina Aguilera**

No one ever said That love was gonna be easy Gotta take the ups and downs the in-betweens If you take this journey Gotta give yourself completely Never let nobody ever step on our dreams

You better stop Listen to these words that I say You better stop Don't ya throw this good thing away Put your trust in me And I'll make you see

No the rain won't last forever Find a way to make it better Long as we can stand together Love will find a way Gonna make a new tomorrow Say goodbye to tears and sorrow Better listen when I say Love will find a way

Somebody tried to tell me Love don't last forever Said it only happens in your wildest dreams After all is said and done We're still here together Never listened to the lies and jealousy

You better stop Don't you let 'em turn you around You better stop Hang on to this love that we've found Nothing that they say can stand in our way

No the rain won't last forever Find a way to make it better Long as we can stand together Love will find a way Gonna make a new tomorrow Say goodbye to tears and sorrow Better listen when I say Love will find a way

I want you, I need you You know that I believe you We got it, you know it So if it's real, just show it

I want you, I need you You know that I believe you We got it, you know it So if it's real, just show it

You better stop Listen to these words that I say You better stop Don't ya throw this good thing away Put your trust in me And I'll make you see

No the rain won't last forever Find a way to make it better Long as we can stand together Love will find a way Gonna make a new tomorrow Say goodbye to tears and sorrow Better listen when I say Love will find a way
