

# That's Us/Wild Combination

Christine and the Queens

That's us before we got there  
That's morning time before we got there  
That's morning time before we got there  
That's morning time before we got there

I just want to be wherever you are  
Hard as that can be, it's never too hard  
With this our love to see by its own light  
Love inside of me it's working at night  
Seconds before I see in the dark, yeah

Seconds turn this time that, it's so  
Coming to, seconds turn this time that I  
Such fun to be with, it's a big old world  
With nothing in it  
I can't wait to see you another minute

It's a wild combination  
It's a wild combination  
It's a wild, it's a loving you baby  
It's a talk in the dark, it's a walk in the morning  
It's a wild combination  
It's a wild combination  
It's a wild, it's a loving you baby  
It's a talk in the dark, it's a walk in the morning

That's us before we got there  
That's morning time before we got there  
That's us before we got there  
That's morning time before we got there

For a price push up and be part of it all  
Surfing, swimming

(It's a wild combination) Kissing  
(It's a wild combination)  
(It's a wild, it's a loving you, baby)  
(It's a talk in the dark, it's a walk in the morning)  
That's us before we got there  
That's morning time before we got there  
That's morning time before we got there  
That's morning time before we got there

(It's a wild combination)  
(It's a wild combination)  
(It's a wild, it's a loving you, baby)  
(It's a talk in the dark, it's a walk in the morning)
