

Dance On Jupiter

Christon Gray

Aaaah, ooooh
Aaaah, ooooh

You look like a woman on a mission
Well, let me be your intermission
Hope I make your day and make you smile too
Imma write this song just to remind you
That you can be anything
Build the biggest bridge and fly a plane
Go to the moon and meet an alien
Or maybe one day you'll be the president

But just don't stop dreaming when you wake up
Find an old friend, have a drink then make up
Everybody won't be who they say there were
So shoot for the stars and dance on Jupiter
Just don't stop dreaming when you wake up
Find an old friend, have a drink then make up
Everybody won't be who they say there were
So shoot for the stars and dance on Jupiter

Da da da, da da da, da da da daaa
Da da da, da da da, da da da daaa
Da da da, da da da, da da da daaa
Da da da, da da da, da da da daaa

Looks never really made you beautiful
But, you're so mufuckin' beautiful
Killin' all my darlings, its a funeral
Dearly departed, broken hearted hoes
I only have eyes for you, only make time for you
Ride or die with you, side by side with you
Someone find me a reverend
Wake me up, is this heaven

But just don't stop dreaming when you wake up
Find an old friend, have a drink then make up
Everybody won't be who they say there were
So shoot for the stars and dance on Jupiter
Just don't stop dreaming when you wake up
Find an old friend, have a drink then make up
Everybody won't be who they say there were
So shoot for the stars and dance on Jupiter

Da da da, da da da, da da da daaa
Da da da, da da da, da da da daaa
Da da da, da da da, da da da daaa
Da da da, da da da, da da da daaa
