

Keep In Mind

Christon Gray

Keep in mind, I still think of you
No one makes me feel this way
I think about that day

No one's made me vulnerable
They don't know what I'm thinking of
I need you here with me
But I know you'll never be

Looking out a window
She made it look so simple
The autumn nights are sweet
And we were up the street from the temple
Ordinary people
Walking on the beach
Dancing down the isle of you
Think about
What a beautiful wedding
Don't know if I'm ready
Think about
Gotta have in the morning
Ooh I don't [?] my darling
It was magic
Think about you in my flashbacks

I know I'll wait too long
I know that she'll be gone forever
Don't wanna leave you here
Cause you'll disappear forever
