# Nowhere

**Christon Gray**

World so cold everyday
I feel so alone and far away
Then you came out of nowhere
Came out of nowhere

I ran away, still you pursued
Though you came out of nowhere
And brought me to you
Though you came out of nowhere
And brought me to you

Hold me close 'til I understand
I feel like falling and I reach for your hand
Then you came out of nowhere
Though you came out of nowhere

I ran away, still you pursued
Though you came out of nowhere
And carried me through
Though you came out of nowhere
And brought me to you

I've been here before, now I'm back in your arms
But why would I leave when you kept me from harm
And you hold me close, so close
You brought me to you

I ran away, still you pursued
Though you came out of nowhere
And carried me through
Though you came out of nowhere
And brought me to you
Came out of nowhere
