

## Roses 103 - Ghost

Christon Gray

I just don't want my heart to turn to stone  
So I let myself forget that you've been gone for a spell  
And well it's been quite some time  
You left when I was young  
I lay in my bed reciting songs you never sung  
And I only knew you as the phone that never rung

And I told everyone I was loved by a ghost  
I told everyone I could feel you almost  
But you never called me and you never wanted to  
The way I wanted you

I used to have your picture in my phone  
I'm used to making decisions on my own  
I don't want to  
It's not easy never having you here  
I miss you  
All the goodbyes, hellos, I love yous never here  
I guess I got used to only seeing you in the mirror

And I told everyone I was loved by a ghost  
I told everyone I could feel you almost  
But you never called me and you never wanted to  
The way I wanted you

So hard to believe, there's a perfect love  
That can conquer every fear  
It's never been easy  
It's like another one leaves me  
Every time I wipe my tears  
And it's so hard seeing your face in the mirror

But I'll tell everyone that I'm loved by a ghost  
I'll tell everyone that I feel you almost  
'Cause you've always called me and you always wanted to  
The way I wanted you  
And more  
Wanted you and more
