

Super Dave

Christon Gray

(Baby girl) what you want, and what you need from me
(Baby girl) I won't waste your time, I'll satisfy
(Baby girl) take all your fears put on beliefs, oh
(Baby girl) don't mistake me for you last man

Open up baby
Your scars are safe here with me
But I keep chasing a heart that wants to be gone
Maybe I'm crazy
Cause of what your starting to believe
There was hope for you and me

Just look up, baby
Take my heart out for a drive
Girl, let's ride, together it feels right
Got control, baby
Relaxing for the time
You just ride, me tonight, tonight

Guards down now we're rolling
Sit back and take it slow and
There's danger in the road ahead
I'll get you there, I'll get you there

(Baby girl) all I can do is just be honest
(Baby girl) love takes more trust than it takes logic
(Baby girl) don't string me along with broken promises
(Baby girl) tell me what it is

Open up baby
Your scars are safe here with me
But I keep chasing a heart that wants to be gone
Maybe I'm crazy
Cause of what your starting to believe
There was hope for you and me

Just look up, baby
Take my heart out for a drive
Girl, let's ride, together it feels right
Got control, baby
Relaxing for the time
You just ride, me tonight, tonight

Guards down now we're rolling
Sit back and take it slow and
There's danger in the road ahead
I'll get you there, I'll get you there
