

(Baby Girl) What you want, and what you need from me  
(Baby Girl) I won't waste your time, I'll satisfy  
(Baby Girl) Take all your fears put on beliefs, Oh  
(Baby Girl) Don't mistake me for yo' last man

Open up baby  
Your scars are safe here with me  
But I can't keep chasing a heart that don't wanna be caught  
Maybe I'm crazy  
Cause I was just starting to believe  
There was hope for you and me

Just let go, baby  
Take my heart out for a drive  
Girl let's ride, here together it feels right  
I got control baby  
You can ride, me tonight, tonight

Guards down now we're rolling  
Sit back, I'll take it slow and  
There's danger in the road ahead  
I'll get you there, I'll get you there

(Baby Girl) All I can do is just be honest  
(Baby Girl) Love takes more trust than it takes logic  
(Baby Girl) Don't string me along with broken promises  
(Baby Girl) Tell me what it is

Open up baby  
Your scars are safe here with me  
But I can't keep chasing a heart that don't wanna be caught  
Maybe I'm crazy  
Cause I was just starting to believe  
There was hope for you and me

Just let go, baby  
Take my heart out for a drive  
Girl let's ride, here together it feels right  
I got control baby  
You can ride, me tonight, tonight

Guards down now we're rolling  
Sit back, I'll take it slow and  
There's danger in the road ahead  
I'll get you there, I'll get you there
