

Doctor Faith

Christopher Cross

(Doctor Faith, fix me, Doctor Faith)

Here you are again, the chair, the pad, the cup
(Doctor Faith, fix me, Doctor Faith)
Never been more empty, go on and fill me up
This office is a prison, the only home I know
(Doctor Faith, fix me, Doctor Faith)
The door sits wide open, please let me go

You
I don't believe what you tell me
Say the part again
Where good women love good men
You
I don't care what you tell me
Don't say my time is through

You tease me with the truth, you say these things take years
(Doctor Faith, fix me, Doctor Faith)
I know you know I saw you smirk behind my tears
The tree inside your window is seven stories tall
(Doctor Faith, fix me, Doctor Faith)
It knows more than I do, it's there and that's all

Oh, you
I don't believe what you tell me
Say the part again
Where I'll never be your friend
You
I don't care what you sell me
Hurt me till I'm brand new

Please, don't touch me
Love won't save me
I can hear your voice while I'm away
Please, don't touch me
Love won't save me
Please, don't, please, don't

You
I wanna believe, I wanna believe
I wanna believe what you tell me

But you
I don't believe what you tell me
Say the part again
Where there's world without end
You
It's a sin what you tell me
But don't say my time is through

(Doctor Faith)
