

# I Don't See It Your Way

Christopher Cross

Call it discussion  
Call it debate  
Call it two fools shouting at the night  
Toxic with anger  
Right from the gate  
As each of us pretend we know what's right  
We can't repair it  
It's way too late  
Now our hearts are only in this fight

Love and kindness  
Is the rule  
But my darling  
I'm no fool

I don't see it your way  
I don't see it your way  
I don't see it your way  
I don't see it your way  
Say I'm a typical man  
Say I'm an old cliché  
But I don't see it your way  
I don't see it your way  
I like to think I'm trying  
But I don't hear what you say  
'Cause I don't see it your way  
I don't see it your way

You slap me with silence  
I make a scene  
We'll see who hits the wall  
Before we're through  
You judge me so harshly  
You seem so mean  
And saying this of course  
I'm judging you  
The circle's vicious  
'Round our necks  
Don't talk money  
Don't talk sex

'Cause I don't see it your way  
I don't see it your way  
I don't see it your way  
I don't see it your way  
I don't dig my role  
In your morality play  
And I don't see it your way  
I don't see it your way  
I need my conclusions  
To keep oblivion at bay  
I don't see it your way  
I don't see it your way

And when I knew it all  
Oh I felt so free

I don't see it your way  
Ain't no shades of gray  
I don't see it your way  
Ain't no shades of gray
