

## With Me Now

Christopher Cross

You've known me forever  
But you don't know me well  
I was on the sidelines  
Every time you fell  
And I watched the bastards break your heart  
And never give a damn  
I've finally seen enough so here I am

Ah but what could be my chances  
With a girl like you  
I don't look too fancy  
I don't live the way you do  
So I guess it's tough to imagine me  
This perfect kinda guy  
But I've got to make this move or I may die

Is there nothing I can do darlin'  
Is there nothing I can say  
Is there nothing I can do darlin'  
To make you wanna stay  
Here with me now  
Maybe

I don't know how to say this  
I'm a nervous wreck  
But I know your lonely laughter  
And the sweet curve of your neck  
And I'm pretty sure I know the woman  
That you've come to be  
And I know that if she'd have me  
She'd be everything to me

Is there nothing I can do darlin'  
Is there nothing I can say  
Is there nothing I can do darlin'  
To make you wanna stay  
Here with me now  
Maybe

I've already held you tight  
And we've already talked all night  
I have brought you comfort  
On your darkest day  
All my sad rehearsing  
Please don't turn away

Is there nothing I can do darlin'  
Is there nothing I can say  
Is there nothing I can do darlin'  
To make you wanna stay  
Here with me now  
Maybe

Is there nothing I can do darlin'  
Is there nothing I can say  
Is there nothing I can do darlin'  
To make you wanna stay

You're with me now  
Baby
