

# Wonderland

Christopher Cross

I fell asleep in the dentist chair  
They'd shot me with all kinds of junk  
I had a dream that was wicked cool  
About this guy who was kind of a monk  
He came out of a garbage can  
And he spoke right out loud  
To a great big crowd  
He said  
Do you believe in Wonderland  
You wanna live in a Wonderland

Everybody keep your chin up  
Keep your head down  
Let your mind be clear  
Everybody gotta do  
A lotta work that you love  
Before you get outa here  
Everybody don't you spend  
A lot of worry time  
Thinkin' what this world is not  
Just imagine us a good one  
While livin' in the one we got

He waved his hand  
And the stars turned red  
Oh man it gave us a chill  
He said for real hey it's no big deal  
Anyone can do it at will  
And we laughed and said  
Do you believe in Wonderland  
And he said  
Can't you see it's a Wonderland

Everybody keep your chin up  
Keep your head down  
Let your mind be clear  
Everybody don't be afraid  
To touch another soul  
'Cause that's why we're here  
Everybody don't you sit around  
Hatin' on the world  
Before you're gone like a shot  
Just imagine us a good one  
While livin' in the one we got

I started hearing his Wonderland  
In my cynical Blunderland

He said you gotta think  
About the good things  
That's what's gonna keep you sane  
He said to just remember  
Everything that you see  
Is coming from your brain  
And he went back into his garbage can  
And I woke up in a whole lot of pain  
I said it doesn't feel like a Wonderland

But I believe in Wonderland

Everybody keep your chin up  
Keep your head down  
Let your mind be clear  
Everybody gotta do  
A lotta work that you love  
Before you get outa here  
Everybody don't you be afraid  
To touch another soul  
Or to wipe a tear  
Just imagine us a good one
