

# A Beautiful Life

Christopher

"Baby, I'm pregnant", she said  
And I saw my whole life  
Flash before my eyes  
So much for planning ahead  
We're gonna be all right  
There won't be a right time  
Oh, I said, "I am way too young"  
I'm just a kid, I can't raise one

It feels like my life is over  
Feels like my future's crushed  
And I'm gonna miss the times  
When it was just the two of us  
I don't ever want to let go  
Of everything that I love  
I sure feels like dying  
Saying goodbye  
To my beautiful life

"Daddy, I can't sleep", she said  
Can you leave the light on?  
And please sing me my song  
And I can't help but think to myself  
Those green eyes and brown curls  
Turned into my whole world  
She's growing up so fast  
If only I could make it last

It feels like my life is over  
Feels like my future's crushed  
Cause my baby's getting older  
Tomorrow she'll be all grown up  
Don't ever want to let go  
Of everything that I love  
I turn off the lights  
And say good night  
To my beautiful life

Pack her bags and ready to go  
We look at each other  
She looks like her mother  
Off to chase dreams of her own  
She cries in the back seat  
As we wave at the taxi  
Oh, our baby's moving out  
Leaving this home an empty house

Feels like my life is over  
Feels like my future's crushed  
And I'm gonna miss the times  
When it was just the three of us  
I don't ever want to let go  
Of everything that I love  
It sure feels like dying  
Saying goodbye  
To my beautiful life

To my beautiful life

"Baby, I'm pregnant", she said  
And I saw my whole life  
Flash before my eyes.
