

Christopher - Crazy

Christopher

What now, here we go again
I swear we've been through this at least a million times before
All these little things stuck on repeat
It seems like when everything's good
You go and pick a fight
Then you're walking out the door
But I'm feeling that's the way it should be

Because we're up and we're down
But I don't wanna get all this right
I go left, you go right
And that's why you're the one

You're crazy
But baby
I can't think of letting you go
All I can see
Is just the way that you love me
Fall in, fall out
You got my whole world spinning around
All I can see
Is just the way that you love me

The way that you love me

What now, I see it in your face
What you about to say?
Do I need to brace myself?
'Cause I never know what's gonna be
I'm home too late, we never go out
I work too much, I'm out, don't stare again
But no matter what, we'll disagree

Because we're up and we're down
But I don't wanna get all this right
I go left, you go right
And that's why you're the one

You're crazy
But baby
I can't think of letting you go
All I can see
Is just the way that you love me
Fall in, fall out
You got my whole world spinning around
All I can see
Is just the way that you love me

The way that you love me

Even through all this fuss and all this fighting
Girl, I'm right here
When you hate me one day
Then the next day you'll be right there
I know where we stand, I know we're different
That's why we're good
And when you yell and throw shit, it ends with makeup sex

That's why you're the one

You're crazy
But baby
I can't think of letting you go
All I can see
Is just the way that you love me
Fall in, fall out
You got my whole world spinning around
All I can see
Is just the way that you love me

You're crazy
But baby
I can't think of letting you go
All I can see
Is just the way that you love me
Fall in, fall out
You got my whole world spinning around
All I can see
Is just the way that you love me

The way that you love me
