

Evidence of Us

Christopher

Tell me why the world still spins 'round
Why the birds sing this loud
It's like they don't understand you're gone
And there's no reason for the stars to shine
So tell them it's a waste of their time
'Cause you're not here tonight
Oh my

You went on without me
But don't forget about me
And this photograph
Is the only proof we ever were in love

Could be a creation
Of my imagination
But this photograph
Is the only proof, the evidence of us

This photograph is the evidence of us

Tell me what's the point of the pouring rain
If I can't even touch your skin
What's the point of letting someone in
At all? Hm
Tell me where are all these people going?
I feel the traffic slowing down
It's a bad time
I'm stopping at this red light
I'm getting looks from both sides
And I can't stop crying

'Cause you went on without me
But don't forget about me
And this photograph
Is the only proof we ever were in love

Could be a creation
(Ah)
Of my imagination
(Ah)
But this photograph
Is the only proof, the evidence of us

This photograph is the evidence of us

This photograph is the evidence of us

Every night before
I turn the lights off
I take a look at the last
(Ah)
Piece of paper
Of us together
A frozen in love in the past
(Ah)
I know it's sad
But it's all I have

And it's not even the worst part
I'm in a place
Where I'm loving the pain
And the thought of you breaking my heart

You went on without me
But don't forget about me
But this photograph
Is the only proof, the evidence of us
