

Ghost

Christopher

I was livin' on the edge of life
Breathing fire
Till my lungs burned out
Chasin' the dust on the road
Watchin' you go
I was spendin' all my time
Tryna find you
In my bad decisions
My heart won't let you go
It's my fault, I know

I was lettin' you down
With my head in the clouds
It's a long way to fall
When your feet don't touch the ground
It took a while to figure it out

And now you're living on the West Side
Livin' your best life
Lovin' the wrong guy
You used to be mine
But I let you go
And that's the part that hurts me the most
I know I said I need my own space
That was a mistake
Made my own heartbreak
Now you're at his place
Ignoring my calls
I see your face wherever I go
And now I'm just somebody you ghost

In the night, I'm
Fightin' fires
Know who's cryin'
'Cause I'm the one that started them all
Still, can't let you go

I was lettin' you down
With my head in the clouds
It's a long way to fall
When your feet don't touch the ground
It took a while to figure it out

And now you're living on the West Side
Livin' your best life
Lovin' the wrong guy
You used to be mine
But I let you go
And that's the part that hurts me the most
I know I said I need my own space
That was a mistake
Made my own heartbreak
Now you're at his place
Ignoring my calls
I see your face wherever I go
And now I'm just somebody you ghost

Now I'm sendin' you messages you'll never read
Just a name on your phone, nothin' more
And it's killin' me
I guess it's all that I'll ever be

And now you're living on the West Side
Livin' your best life
Lovin' the wrong guy
You used to be mine
But I let you go
And that's the part that hurts me the most
I know I said I need my own space
That was a mistake
Made my own heartbreak
Now you're at his place
Ignoring my calls
I see your face wherever I go
And now I'm just somebody you ghost
And now I'm just somebody you ghost
