

Good To Goodbye

Christopher

Can we just skip the lights?
Can we just skip the fights?
Can we just skip the part where we pretend we're fine?
Can you stop playing dumb
So I can stop playing along?
Can we stop acting like we're kids when we're adults

You say we're over, then come over
Make love to break up, to make up again
You say you're happy, but that scares me
'Cause it means that we're close to the end

We go from good to goodbye
We go from good to goodbye
You say, "Let's do this"
I say something stupid
We go from good to goodbye
Maybe it's time to say

Goodbye
Goodbye
Bye bye

Say we're better off, but we just never stop
I tell myself it's better if you're mine
And you know how bad I hate to lose
I'm sure it would hurt if I saw you with someone else
I'd rather keep you to myself

You say we're over, then come over
Make love to break up, to make up again
If it's only 'cause we're lonely
Guess that means that we're close to the end

We go from good to goodbye
We go from good to goodbye
You say, "Let's do this"
I say something stupid
We go from good to goodbye
Maybe it's time to say

Goodbye
Goodbye
Bye bye

When you say, "Let's do this"
I say something stupid
It ends with "goodbye"
No, we never change
Something stays the same
It ends with "goodbye"

We go from good to goodbye
We go from good to goodbye
You say, "Let's do this"
I say something stupid
We go from good to goodbye

Maybe it's time to say

Goodbye

Goodbye

Goodbye bye

Goodbye

Goodbye

Bye bye
