

Heartbeat

Christopher

It's like a song that no one hears
I'm screaming out but you're not here
All I wanna do
All I wanna do is say I love you
All I wanna do
All I wanna do is say I care

Words don't work
Feeling like they have no worth
Here and now
There's nothing in between

How could I ever describe the way I feel?
Why should I even try when obviously
All the words that I say seem to get in my way
Only wish I could say it with a heartbeat
Say it with a
(Say it with a, say it with a)

It's like a stage without a crowd
Our best performers but no one's proud
All I wanna do
All I wanna do is say I love you
All I wanna do
All I wanna do is say I care

I swear my words don't work
Feeling they have no worth
Here and now
There's nothing in between, no

How could I ever describe the way I feel?
Why should I even try when obviously
All the words that I say seem to get in the way
Only wish I could say it with a heartbeat

Say it with a
(Say it with a, say it with a)
Say it with a heartbeat
(Say it with a, say it with a)
Say it with a heartbeat
