High  
High  
High  
High

I never really read the Bible  
But this the kind of thing I'd pray for  
Your body's making me believe it  
You must be Victoria's biggest secret  
Just being 'round you got me faded  
But it's feeling so amazing  
It's killing me but I won't fight it  
It's a fine line between loving you and dying

I'm tripping, I'm tripping, I'm flying (Why don't you?)  
I don't even know what the time is (They know you)  
It feels like I'm out of my mind  
You say I'm crazy, I think the word is...

High, I'm so high  
You make me feel so high, oh  
You say I'm crazy, I think the word is...  
High, I'm tripping out of my mind  
Don't know what just hit me, I done lost the track of time  
'Cause I'm high, head is in the sky  
Spinning 'round in circles, I ain't putting up a fight

I just hit another level  
I slow dance with the devil  
I don't want anyone to save me  
'Cause I don't care if it kills me

I'm tripping, I'm tripping, I'm flying (Why don't you?)  
I don't even know what the time is (They know you)  
It feels like I'm out of my mind  
You say I'm crazy, I think the word is...

High, I'm so high  
You make me feel so high, oh  
You say I'm crazy, I think the word is...  
High, I'm tripping out of my mind  
Don't know what just hit me, I done lost the track of time  
'Cause I'm high, head is in the sky  
Spinning 'round in circles, I ain't putting up a fight

High  
High, so high  
You say I'm crazy, I think the word is...

High, I'm so high  
You make me feel so high, oh  
You say I'm crazy, I think the word is...  
High, I'm tripping out of my mind  
Don't know what just hit me, I done lost the track of time  
'Cause I'm high, head is in the sky  
Spinning 'round in circles, I ain't putting up a fight  
I'm so high, I'm tripping out of my mind

Don't know what just hit me, I done lost the track of time  
'Cause I'm high, head is in the sky  
You say I'm crazy, I think the word is high
