

# Just Kiss Me

Christopher

When I'm all alone, babe  
It feels like I can't go on  
I move but I'm a still stone  
How you watching over me? Yeah  
Does a river flow? Yeah ayy  
Through your heart into your soul  
There's nothing I can do no more  
Honey I am on my own, yeah ayy

Just kiss me baby  
And everything will be alright  
Just kiss me baby  
Help me make it through the night

So as the lights go down (Down, down)  
The fear makes my body so cold  
I'm shout but I make no sound, ooh babe  
I need someone to bring a mirror, yeah  
Aww baby  
Tell me why it's so hard, to walk without your hand in mine?  
To breathe without you by my side? (Ooh babe)  
Honey if you're hearing me now

Just kiss me baby (Ooh baby)  
And everything will be alright (I need your love)  
Just kiss me baby, yeah hey ayy  
Help me make it through the night

Just kiss me baby  
And everything will be alright  
Just kiss me baby  
Help me make it through the night

Just kiss, me baby  
Just kiss, me baby  
Just kiss, me baby
