

# Leap Of Faith

Christopher

I've been wonderin'  
Am I the only one  
To see it comin'?  
We've been doin' it wrong  
For so long

Ain't it funny  
How we keep complainin'  
But do nothin'?  
Well, we know that we'll make it  
Go away

We're watchin' the clouds changin' shapes  
Wait for the storm and taste the rain  
But if we're standin' still, now  
It'll be too late

If you're prayin' for a change  
You better not wait  
Keep turnin' the pages  
There's choices you make  
Only once in your life  
Once in your life

If you're prayin' for a change  
You better not wait  
Keep turnin' the pages  
There's choices you make  
Only once in your life  
Only once in your life

Are we takin'  
More than we can give?  
Celebratin'  
Like there's no risk  
It's a risk

We're watchin' the clouds changin' shapes  
Wait for the storm and taste the rain  
But if we're standin' still, now  
It'll be too late

If you're prayin' for a change  
You better not wait  
Keep turnin' the pages  
There's choices you make  
Only once in your life  
Once in your life

If you're prayin' for a change  
You better not wait  
Keep turnin' the pages  
There's choices you make  
Only once in your life  
Only once in your life

When we fade, the sky's turnin' gray

Would you leave us behind  
Or take a leap of faith?  
I still see your color just the same  
Do you see us shine?

If you're prayin' for a change  
You better not wait  
Keep turnin' the pages  
There's choices you make  
Only once in your life  
Once in your life

If you're prayin' for a change  
You better not wait  
Keep turnin' the pages  
There's choices you make  
Only once in your life  
Once in your life

If you're prayin' for a change  
You better not wait  
Keep turnin' the pages  
There's choices you make  
Only once in your life  
Only once in your life

I've been wonderin'  
Am I the only one  
To see it comin'?  
We've been doin' it wrong  
For so long
