

# Lots of Downs

Christopher

Lots of downs but it's no sin  
I have to face the fact, I cannot always win  
I just think it's a little early  
In between and all across  
I believed in something, something bigger than us  
I'm moving on now

But I, I gotta stick with this  
Wherever it leads  
And I, I gotta stick with this  
Whatever it is

And I've been waiting, and I've been trying  
We all need some space to grow  
You know I've been down  
And I've been begging, and I've been crying  
It took a while but now I know  
The hardest part is letting go

Lots of downs it's no surprise  
But if you don't look up it all gets in your eyes  
I don't think it's ever too early  
The only thing we're leaving here  
Is broken deadlines hearts and tears  
But change is not a thing that I should fear

But I, I gotta stick with this  
Whatever it is

And I've been waiting, and I've been trying  
We all need some space to grow  
You know I've been down  
And I've been begging, and I've been crying  
It took a while but now I know  
The hardest part is letting go

And now that it's over I can start again  
I can start again

(Oh we're over the deadline  
Oh "so long" is the deadline)  
And I've been waiting, and I've been trying  
We all need some space to grow  
You know I've been down  
(I'm ready, I am all in  
I'm flying, I'm not falling)  
And I've been begging, and I've been crying  
It took a while but now I know  
The hardest part is letting go

Lots of downs but it's no sin  
I have to face the fact, I cannot always win  
I just think it's a little early
