

# My Heart

Christopher

So tell me how to find another you baby  
I've looked underneath the stars  
Ooh ooh, and they all think I'm a little crazy  
'Cause I still wonder where you are

Guess we're not breaking even  
You tell me that you're leavin'  
I gave my all to you  
Tell me now what I'm gon' do?  
You threw me in the deep end  
Without a fucking a reason  
You say you're sorry now  
But somehow, you're all I believe in  
Forgiving this evening  
Just say you're not leaving  
I'll pick up my heart  
This game is so uneven  
It's only you that's cheating  
I gave you all of me  
Yeah I gave you all

So tell me how to find another you baby  
I've looked underneath the stars  
Ooh ooh, and they all think I'm a little crazy  
'Cause I still wonder where you are  
You tell me I'm not to be jealous baby  
When I see you dancing in his arms  
Ooh ooh, I wish I knew that loving you would break my heart, my heart, my heart

This show is overrated  
Tell me is still entertaining  
When I gave you all of me  
Yeah I gave you all of me  
I find it so confusing  
You give me your excuses  
When I gave you all of me, but recently  
You say it's timing  
I say at least I'm trying  
Why do you keep playing games with my heart?  
This show is so uneven  
Even all your friends can see it  
I gave you all of me  
You never gave me all of you

You ooh ooh  
I'm needing your love  
You ooh ooh  
You've taken your love  
Your love

So tell me how to find another you baby  
I've looked underneath the stars  
Ooh ooh, and they all think I'm a little crazy  
'Cause I still wonder where you are  
You tell me I'm not to be jealous baby  
When I see you dancing in his arms

Ooh ooh, I wish I knew that loving you would break my heart, my heart, my heart

And now I'm done with fighting  
No more words just silence  
The game is over now  
Our game is over now  
Damn, what was I thinking?  
Loving you through all your hating  
But now it's over now  
And now I'm sober now

So tell me how to find another you baby  
I've looked underneath the stars  
Ooh ooh, and they all think I'm a little crazy  
'Cause I still wonder where you are  
You tell me I'm not to be jealous baby  
When I see you dancing in his arms  
Ooh ooh, I wish I knew that loving you would break my heart, my heart, my heart

I wish I knew that loving you would break my heart, my heart, my heart
