

We'll Awaken

Romano, Carlson Christy

Here in the darkness I feel you at night
Knowing that your there makes eveything right
We have been waiting as time has gone by
Were waiting for something held deep in the night

Were shining out oh its ment to be
When really we should let it free

We'll awaken
When you feel it in your soul
When you taste it
Thats when we will reach our goal

I will have to breake through save me I will rescue you
This mystery we cant hide I see it in your eyes
Plans we made are broken love we feels unspoken
But today we'll show the world what we both know than

We'll awaken
When you feel it in your soul
When you taste it
Thats when we will reach our goal

Yeah we'll awaken
All my life I've been dreaming of you
But now I'm ready

We'll awaken
When you feel it in your soul
When you taste it
Thats when we will reach our goal
We'll awaken
When you feel it in your
Feel it in your
Feel it in your soul
