

## Evermore

Christy Nockels

My faith looks up to you today  
Though I don't understand Your ways  
And just how broken this life can be  
Even when I am trusting You

But suddenly all I can see  
Is what these trials afford me  
And how they're bringing me back to your heart  
Back to your heart, where

Your presence is Your plan for me  
And Your will is where I'll always see  
That on every mountain high  
And every valley low  
You are here with me  
And there's no outcome that is greater  
No promise that is sweeter  
And the answer I keep waiting for  
Is You are with me evermore!

The more I spend my days with You  
I understand what You've called me to  
To love you more than anything  
So that Your love can pour through me!  
More than the dreams I carry  
More than the plans before me  
Jesus, You are the joy of my life, the joy of my life and

Your presence is Your plan for me  
And Your will is where I'll always see  
That on every mountain high  
And every valley low  
You are here with me  
And there's no outcome that is greater  
No promise that is sweeter  
And the answer I keep waiting for  
Is You are with me evermore!  
Evermore, evermore

The healing, the breakthrough, the way through  
Is that You are with me! You are with me evermore!  
My portion, my treasure, my measure  
Is You are with me!  
Evermore, evermore

The healing, the breakthrough, the way through  
Is that You are with me! You are with me evermore!  
My portion, my treasure, my measure  
Is You are with me!

And Your presence is Your plan for me  
And Your will is where I'll always see  
That on every mountain high  
And every valley low  
You are here with me  
And there's no outcome that is greater  
No promise that is sweeter

And the answer I keep waiting for  
Is You are with me evermore!  
You are with me evermore  
You are with me evermore
