

## Sweet and Low

Christy Nockels

Sing sweet and low  
As we watch the day go  
Sing sweet and low  
As we lay our worries down  
A song will flow  
And our hearts will grow  
Sweet and low

We are children of the Day  
With a hope set in our song  
That can make all the world  
Grow still  
And there's a brightness in our eyes  
We were made to shine together  
Like a city on a hill

But how quickly we forget  
How we need to rest  
So the brightness and the hope  
Stay effortless

We sing sweet and low  
As we watch the day go  
We sing sweet and low  
And as we lay our worries down  
A song will flow  
And our hearts will grow  
Sweet and low  
As we dream about tomorrow  
And all it holds  
We'll settle down into the only life know know  
In our Father's arms  
Sweet and Low

There's a time to just be still  
We were made to rest in rhythm  
With the rising of the moon  
Then awaken with the dawn  
As we bless the Lord in all  
That He has given us to do

But how quickly we forget  
Even warriors need to rest  
So the brightness and the hope  
Stay effortless!

We sing sweet and low  
As we watch the day go  
We sing sweet and low  
And as we lay our worries down  
A song will flow  
And our hearts will grow  
Sweet and low  
As we dream about tomorrow  
And all it holds  
We'll settle down into the only life know  
In our Father's arms

## Sweet and Low

When tomorrow comes  
We'll open up the gift of a new day  
We will have some fun, in the sun  
As we work and we play!

Yes, when tomorrow comes  
We will run the race set before us  
We will tell the world how much they're loved  
So they join in the chorus

But when the sun sets with a glow  
We will sing the song we know  
So our brightness and our hope will overflow

We'll sing sweet and low  
As we watch the day go  
We sing sweet and low  
And as we lay our worries down  
The song will flow  
And our hearts will grow  
Sweet and low
