

Beyond The Trees

CHROM

I cannot be what you want me to be
Insecure if life gets better without me
People say that it's time to go further
And every day I try to find a way to cross the border

Can't you see that you and me
We'll meet again beyond the trees
Far beyond the seven seas
We're longing for eternity

So take me down to the ground to the border
All I hear is your voice the new order
Cannot hide the desire to be with you
Forget the past and what we've been through

Can't you see that you and me
We'll meet again beyond the trees
Far beyond the seven seas
We're longing for eternity
I still believe that you and me
We'll meet again beyond the trees
No more pain and no disease
Two souls that reunite in peace
