Down Below

CHROM

Don't tell me lies
I know you did it all before
Don't treat me like that 'cause it hurts
Don't waste my time
If there is something that I should know
Tell me the truth and let me go
Just let me go!

There is a time to say goodbye
To leave the sadness in my life
And everything I used to know
Will be down below
There will be hope there will be light
Banish the darkness in the night
This is the time to let you know
You are down below

These words are cruel
But they are necessary now
Cause it's all over and it's time
Just look outside
The clouds are coming closer now
It's time to run and get away
Just get away!
Just get away!

This is the time to let you know
You are down below
