

Heavenly

CHROM

I take a ride on the darkest night
I'm much too far from home
All the ghosts that I fear most
Just left me all alone
I never thought this day would come
And I never felt this way
Yesterday I've been so scared
But I don't care for today

Heavenly I'm on my way
I just can't wait to see you there
And I believe that this could be
A brand new life without despair
Suddenly I see your face
You're lost in space come over here
Finally I found the place
I've got the grace and I don't fear

I couldn't breathe and I've been so tired
So I had to change my way
I found myself living in a cage
But right now I came out to play
I have to try before I die
And I never felt so good
My inner child is breaking out
I should stop If I could

And I don't fear...

And I don't fear...
