

In My World

CHROM

Find your way in this cruel world
Make it save and don't look back
You can feel it's time to change
Although you're lost you still go on
There's no time to suffer
It may be the last day here on Earth

If you want to be
In my world
Just believe
And spread my word
I've come to see
Through your eyes
Find the curse
Of all your lies

Feeling numb and incomplete
This is more than you can take
No one came to see you cry
Just breathe in and make believe
You can reach up higher
Cause I will guide you through the day
