

# Memories

CHROM

We know each other for so long  
Traveled the world and returned home  
We had no sorrows in these days  
One day you turned around and left  
My world broke down, it took my breath  
These memories will never leave... they'll never leave

I know we'll never meet again  
So come with me and take my hand  
Just let me guide you for today  
This is the time of ignorance  
So don't look back, it makes no sense  
Now all the love just drifts away

Then I went out into a bar  
I saw a girl she looked like you  
Everything seemed to disappear  
I introduced myself to her  
She looked at me and turned around  
Don't do those things to me my dear

Last night I saw you in my dreams  
You were asleep right next to me  
It didn't hurt, there was no fear
