Surrender

CHROM

All I want you to say is nothing
All I want you to do is nothing
All I want you to hear is nothing
All I want you to feel is nothing

You're telling me that you love me
But that's just a lie
Mesmerized by your cruelty
While you burn my eyes
Crucified on your body
I can feel your thorns
Bleeding out, it's so ugly
Surrender with no doubt

All I want you to see is nothing
All I want you to ask is nothing
All I want you to be is nothing
All that you mean to me is nothing

She's my queen at night
She pulls my hands so tight
She's gonna let me in
She's gonna make me sin
